

The Whizz

Powerful self-service technology in a bold, modern terminal.

Whizz

Built for performance. A flagship self-service experience.

The Whizz brings together advanced hardware, high-resolution display technology, and integrated payment capability within a sleek, high-impact kiosk design. Created to support demanding self-service environments, it streamlines transactions, automates key processes, and enhances customer interaction. The result is a powerful platform that improves operational efficiency while delivering a smooth, engaging experience for every user.

Large-format high-resolution display

A vivid 32-inch screen delivers excellent clarity, making menus, prompts, and promotional content easy to engage with.

Responsive touchscreen technology

Precision touch functionality ensures quick, accurate interaction and a smooth user journey from start to finish.

Reduce operational pressure

Routine transactions can be completed independently, helping teams focus on customer support where it matters most.

Keep service moving during busy periods

Fast internal processing and intuitive navigation help maintain flow when footfall increases.

Create additional promotional opportunities

The interface can support targeted offers, branded messaging, and cross-sell prompts throughout the customer journey.

Integrated payment versatility

Supports contactless, card, mobile wallet, cash, and coin payments within one unified kiosk solution.

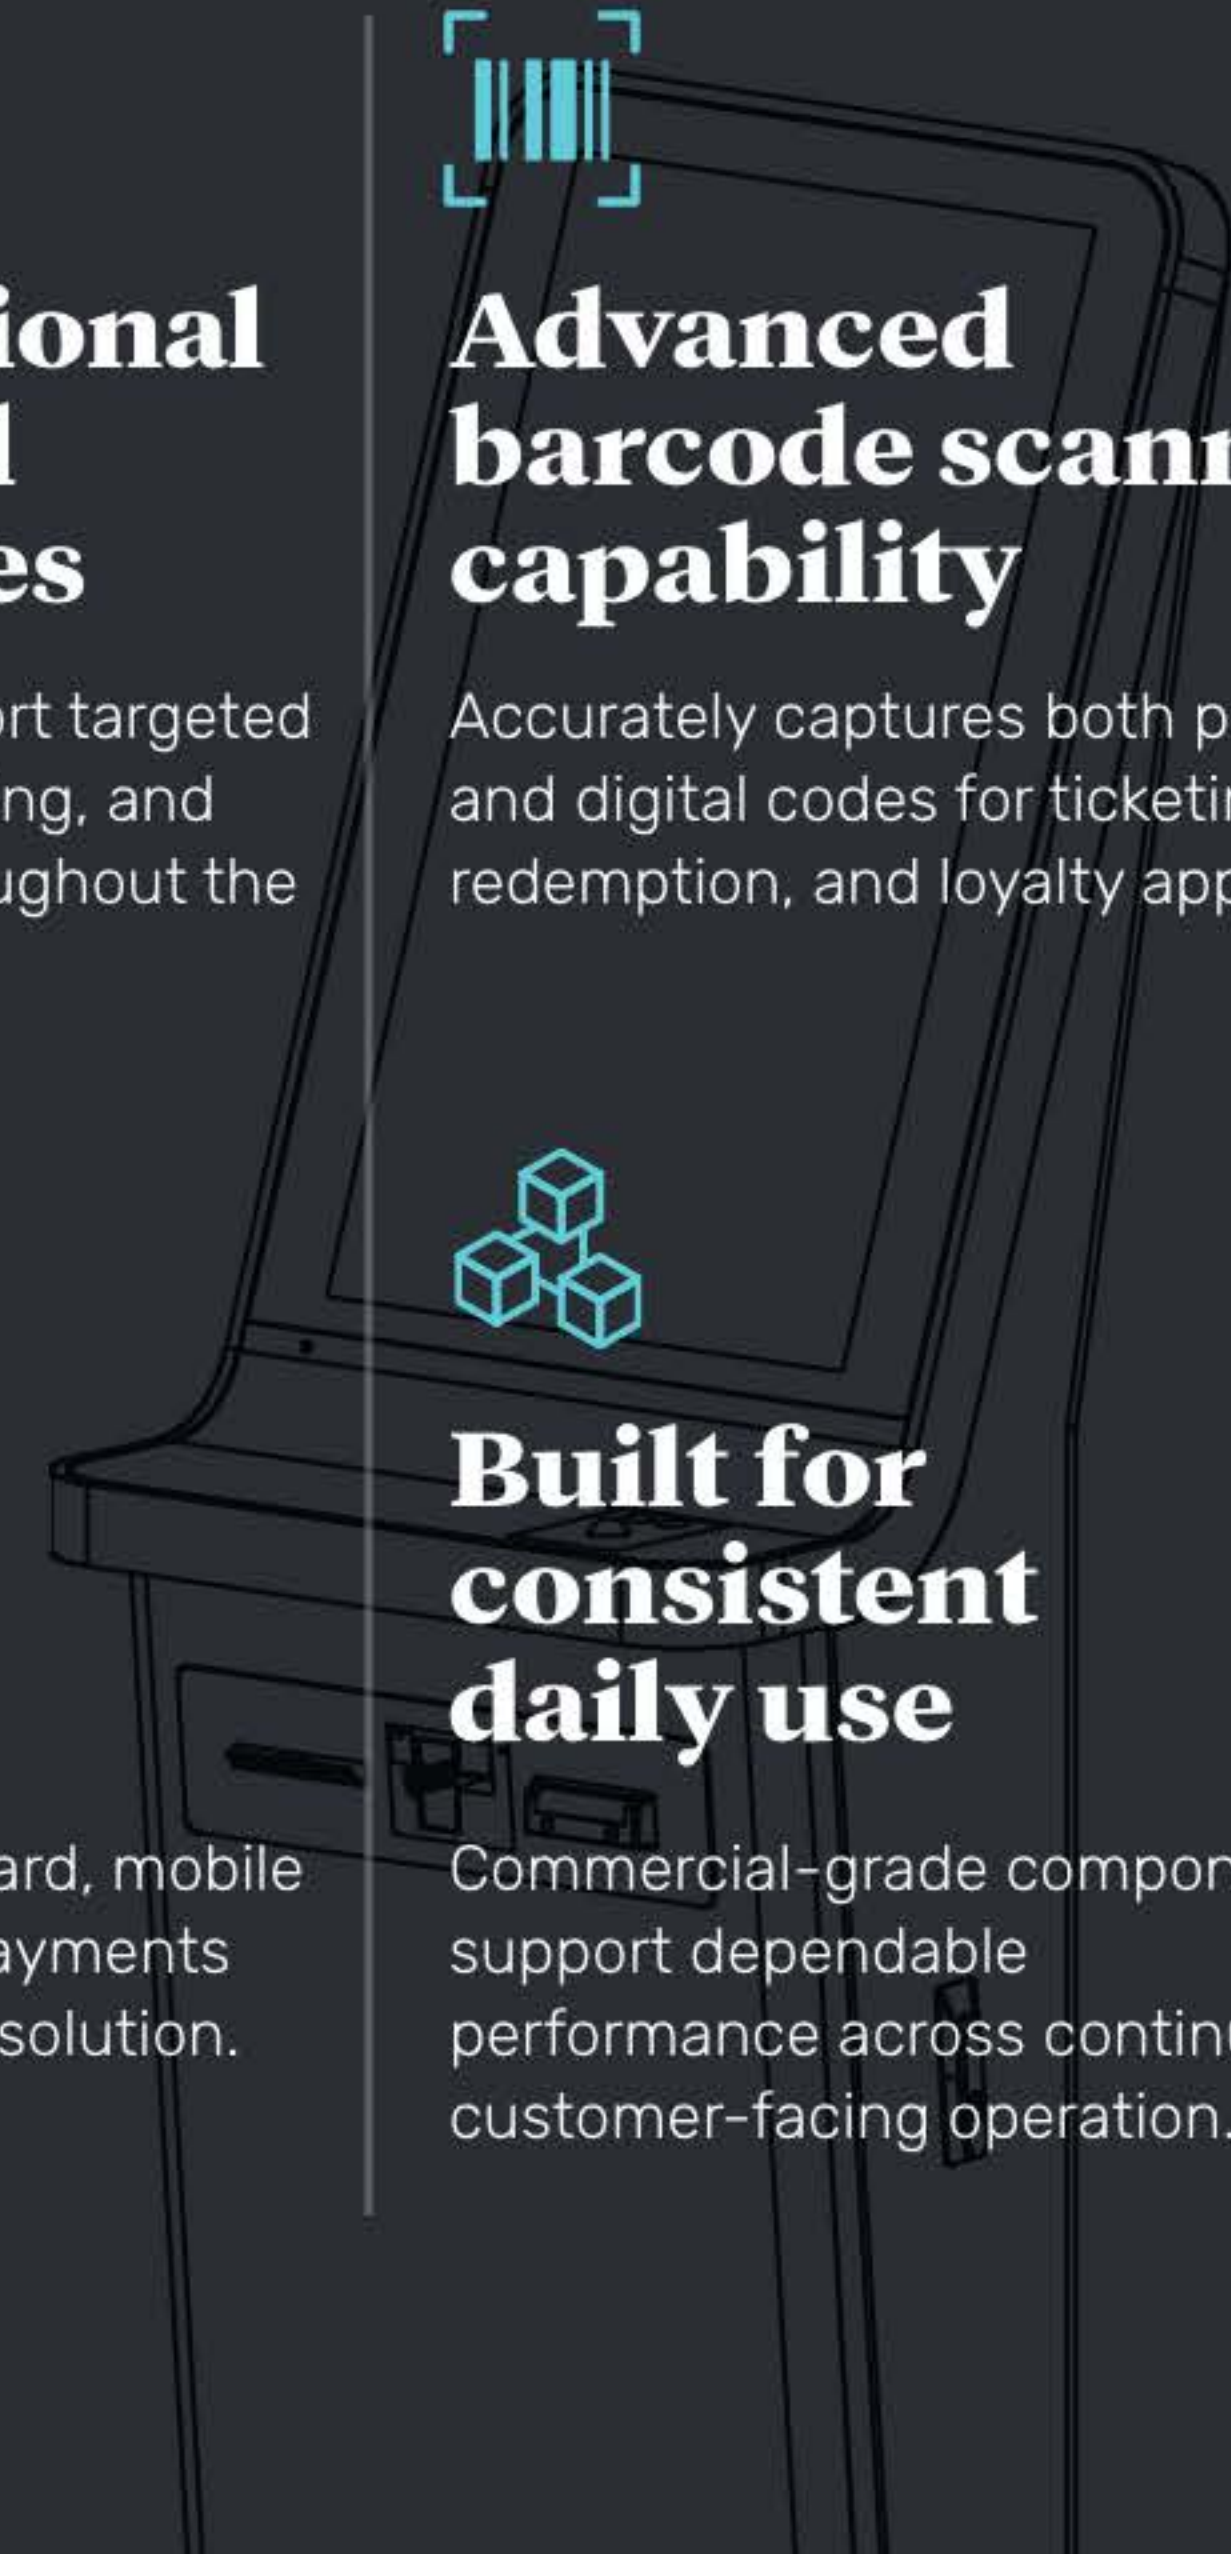

Advanced barcode scanning capability

Accurately captures both printed and digital codes for ticketing, redemption, and loyalty applications.

Built for consistent daily use

Commercial-grade components support dependable performance across continuous customer-facing operation.
