

The Whizz Duo

Dual-screen self-service
designed for visibility
and engagement.

Whizz

Two screens. **One seamless** **experience.**

The Whizz Duo builds on the core Whizz platform with a dual-screen design that increases visibility and engagement within busy environments. Two high-resolution displays create more space for interaction, and differentiating content and messaging, while integrated payment options and reliable hardware support smooth, efficient self-service.

Dual-display configuration

Two high-resolution screens create separate zones for interaction and communication, increasing both usability and visibility.

Increased on-site visibility

The dual-screen format helps the kiosk stand out within busy environments, drawing attention from multiple directions.

Supports faster service flow

Responsive touch interaction and efficient processing help keep transactions moving during peak periods.

Integrated payment versatility

Supports contactless, card, mobile wallet, cash, and coin payments within one unified kiosk solution.

Customer-facing transaction screen

A dedicated primary display delivers a clear, responsive interface for smooth and intuitive self-service journeys.

Secondary screen for promotion and messaging

The additional display can be used for advertising, cross-sell prompts, or branded content during every interaction.

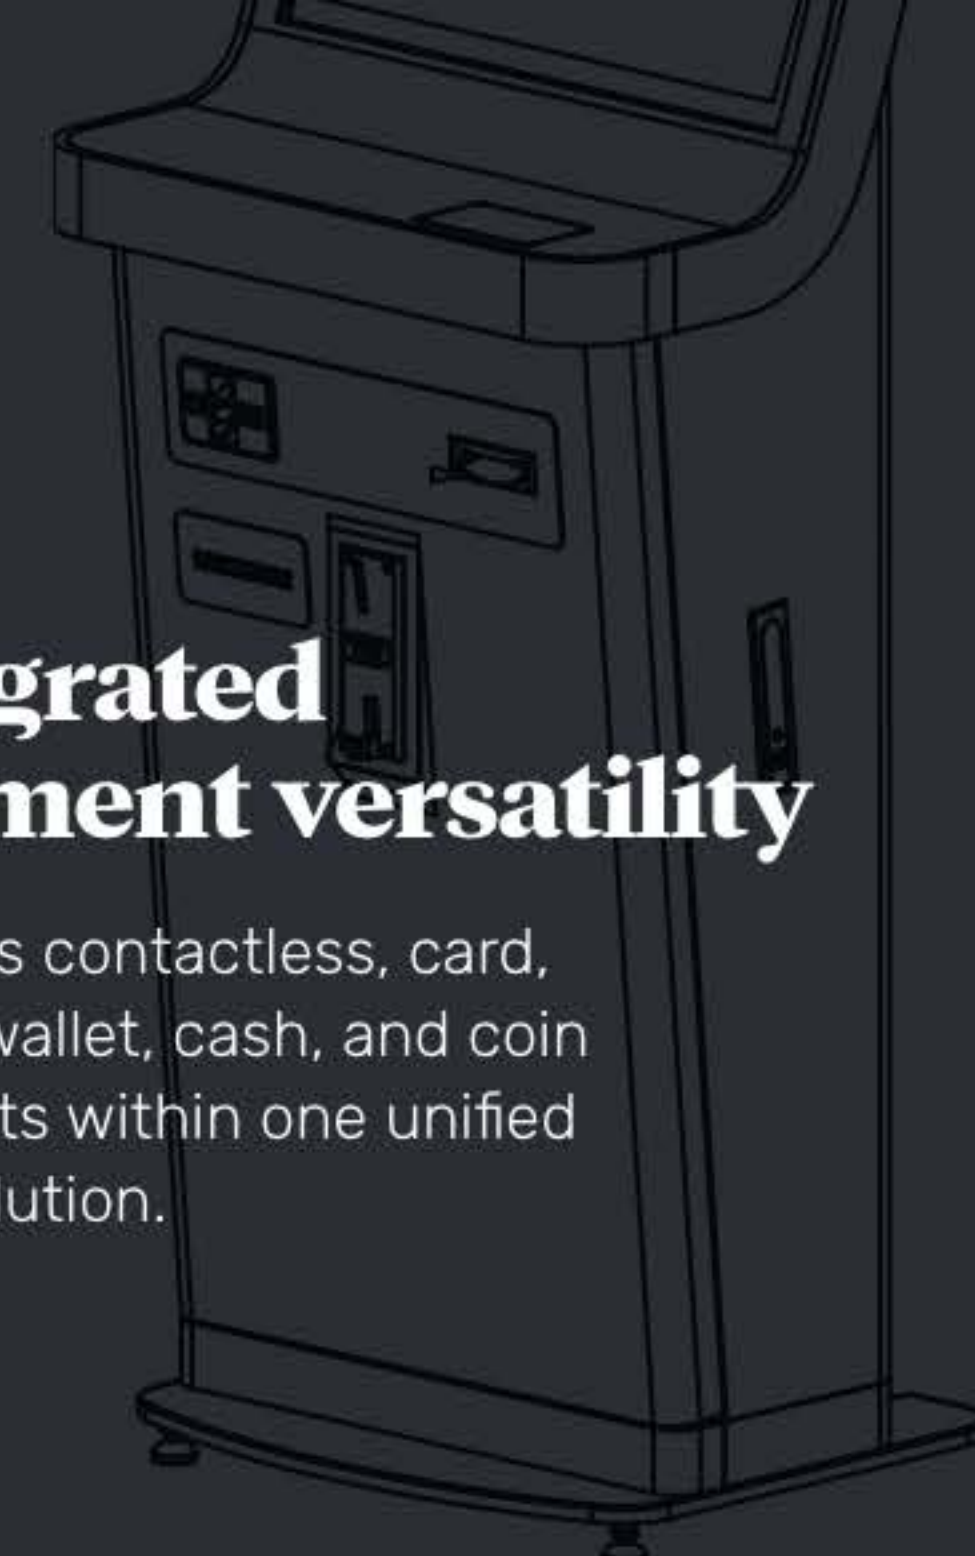

Advanced barcode scanning capability

Accurately captures printed and digital codes to support ticketing, retail, and loyalty use cases.

Designed for high-traffic environments

Built with commercial-grade components to support consistent performance in demanding, customer-facing locations.
