

# The Whizz Mini

Compact self-service  
designed for flexible  
deployment.

*Whizz*

# Built for spaces where efficiency matters most.

The Whizz Mini delivers powerful self-service functionality in a more compact kiosk format, making it ideal for environments where space is limited but customer throughput remains important. Combining a sharp high-resolution display, integrated payment technology, and robust internal hardware, it offers a practical solution for businesses looking to introduce self-service without compromising floor space or performance.

## Space-conscious footprint

The Whizz Mini is designed to fit comfortably into tighter environments, making it well suited to locations where every square metre matters.

## High-resolution display performance

A crisp landscape screen ensures menus, instructions, and branded content remain clear and easy to engage with.

## Fast touchscreen responsiveness

Responsive touch capability supports smooth user interaction and quick navigation through each transaction stage.

## Integrated payment flexibility

Supports contactless, card, mobile wallet, cash, and coin payments within one compact terminal.

## Supports faster customer flow

Self-service functionality helps reduce waiting times and maintain steady service during busy periods.

## Barcode scanning built in

Quick and accurate scanning supports digital tickets, vouchers, loyalty systems, and product transactions.

## Easy to position discreetly

Its smaller form allows the unit to slot naturally into retail, hospitality, and service-led environments without dominating the space.

## Reliable day-to-day operation

Commercial-grade components support consistent use across demanding customer-facing applications.
