

The Whizz Smartpay

Scan, verify, pay –
the all-in-one
smart terminal.

Payment precision in a compact form

Say goodbye to queues, staffing overheads, and manual errors. Whizz Smartpay is a cutting-edge smart payout terminal designed to automate cash-handling processes in modern betting environments.

Whether it's verifying tickets or handling payouts, Smartpay does it all – instantly, securely, and without staff intervention.

Fully Self-Service

From scanning betting slips to processing payments, players control every step.

Compact, Space Saving Design

Maximize floor space while improving service efficiency.

Supports All Payment Types

Accepts contactless, card, and cash for deposits and payouts.

Improved Security

No staffed cashier means fewer risks and tighter control.

Real-Time Ticket Verification

Integrated scanner validates both paper and digital betting slips – instantly.

Online Account Integration

Link with existing online gaming accounts for seamless transactions.

Custom Branding Options

Available in your brand colours, with dynamic LED lighting to attract attention.

Voucher Support

Enable the purchase and redemption of prepaid vouchers.
