

The Whizz XX

**High-resolution
self-service kiosk
engineered for
performance.**

Whizz

Drive efficiency, cut costs, and elevate engagement

The Whizz XX is a robust self-service kiosk designed to streamline key operational tasks – from order taking to payment acceptance to information delivery. Its bold, high-resolution portrait touchscreen and flexible software support allow you to deliver superior user experiences while lowering labour overheads and increasing throughput. Perfect for environments where uptime, responsiveness and ROI matter.

Built for high-traffic environments

Engineered for continuous use, the Whizz XX is designed to perform reliably in demanding, customer-facing locations.

Cut labour costs with automation

By handling repetitive customer interactions, the Whizz XX frees up staff to focus on higher-value work.

Speed up service and reduce queues

Deliver fast, frictionless self-service that keeps users satisfied and throughput high.

Increase spend with smart suggestions

Configure intelligent prompts and upsell messaging to help boost average transaction values.

Large, engaging screen

Built-in barcode scanning verifies both paper and digital betting slips in real time.

Flexible payment acceptance

Handles all major payment methods – including contactless, card, mobile wallets, cash and coins – seamlessly.

Advanced barcode scanning

The high-resolution barcode scanning lens is angled for easy capture of both paper and digital codes.

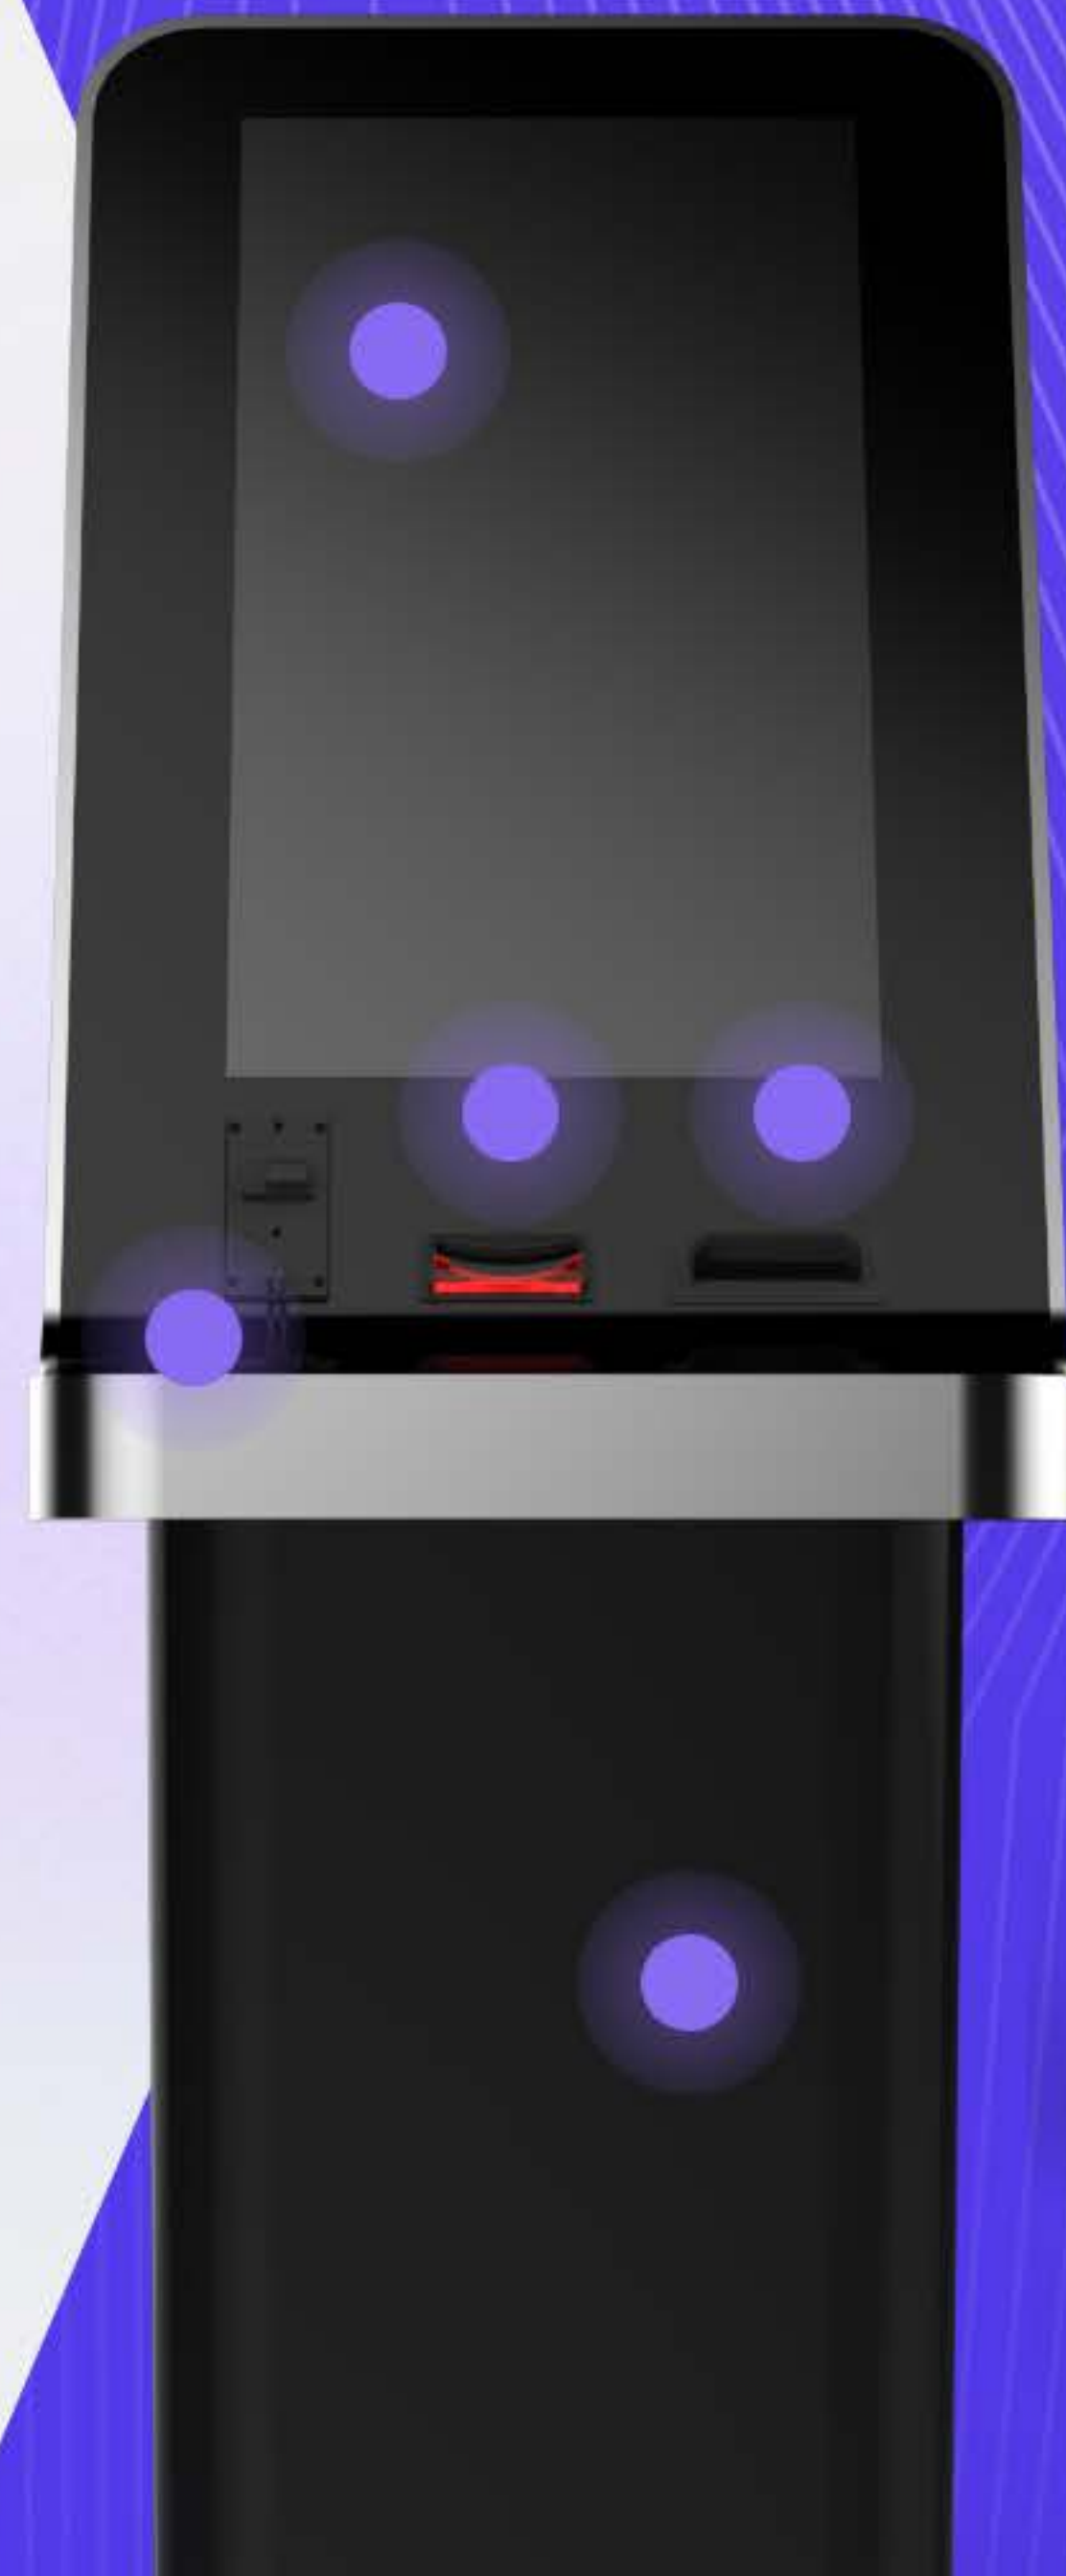

Flexible software deployment

Supports a wide range of self-service applications, allowing operators to deploy, update, and scale services with ease.
